CORPORATE PRESENTATION

Datacronix LLP

Manufactured for Precision. Distributed for Scale.

FY 2026 – 2027

About Us

Datacronix LLP combines in-house manufacturing with reliable distribution, giving clients one partner for custom hardware and dependable OEM supply.

We manufacture network racks and junction boxes in-house, and supply CCTV, passive infrastructure, displays and network switches through established OEM partnerships.

Manufacturing

Distribution

Personal Service

Lean & Agile Execution

Direct leadership involvement, faster decisions and hands-on support from sourcing through delivery and after-sales.

Our OEM partnerships provide access to established hardware brands across racks, cameras, passive infrastructure and network switches.

CAPABILITIES

What We Manufacture & Supply

In-House Manufacturing

Junction boxes and network racks, built to spec in-house.

Distribution & Supply

Cameras, passive infra, displays and network switches via trusted OEMs.

System Integration

Bringing hardware together into working, reliable installations.

Consulting & Support

Guidance on product selection, sourcing and after-sales support.

IN-HOUSE MANUFACTURING

Junction Boxes & Network Racks

Built in-house to spec — giving us direct control over quality, lead times and customization.

Junction Boxes

Metal and weatherproof junction boxes, built to standard or custom sizes for field deployment.

Network Racks

Wall-mount and floor-standing racks (6U–42U), engineered for durability and easy access.

Custom Fabrication

Tailored enclosures and mounting solutions built to project-specific requirements.

Core Distribution Portfolio

Reliable sourcing and supply through established OEM partners across surveillance, passive infrastructure, displays and networking.

Cameras

CCTV and surveillance cameras for security and monitoring applications.

Passive Infrastructure

Cabling, connectors, patch panels and related passive components.

Display Solutions

Screens and display systems for command centres and public spaces.

Network Switches

Managed and unmanaged switches for enterprise and field networks.

OUR PARTNERS

OEM & Brand Partners

We distribute through established OEM brands across each product category, giving clients access to proven, quality-tested hardware.

RACK OEM

Bonsai — Rack OEM

CAMERA OEM

Endroid USA — Camera OEM

PASSIVE INFRA OEM

AFL • Duranet • Alphamax — Passive Infrastructure

NETWORK SWITCH OEM

Pantherun • Cronix One — Network Switches

HOW WE WORK

Our Engagement Approach

01

Understand

We start by understanding your requirement and environment.

02

Manufacture / Source

We build in-house or source through our OEM partners.

03

Deliver

Timely delivery and installation support, closely tracked.

04

Support

Ongoing support to keep systems running smoothly.

PRODUCT PORTFOLIO

Core products available through Datacronix

Network Racks

Wall-mount and floor-standing racks, including project-specific configurations.

Junction Boxes

Standard and custom metal / weatherproof enclosures for field deployments.

Passive Infrastructure

Fiber, Cat6/Cat6A copper, patch panels, LIUs, MPO and termination accessories.

Active Networking

Managed/unmanaged switches, PoE+, industrial switches, SFP/SFP+ and transceivers.

OFFERING

Video Surveillance & Security

CCTV & Smart Cameras

IP Dome, Bullet and PTZ cameras through Endroid USA OEM partnership.

NVR & Video Storage

Network video recorders and storage solutions for surveillance deployments.

Project Deployment

Solutions can be sized for single-site or multi-location projects.

OEM-Based Supply

Specification-led sourcing with brand and equivalent options where applicable.

OFFERING

Managed IT & Network Infrastructure

01

Infrastructure Supply

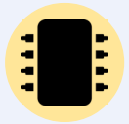

Racks, servers and network hardware sized to your environment.

02

Network Security

Baseline network protection through switch and access controls.

03

Modern Switching

Managed switch solutions from our network OEM partners.

04

Ongoing Support

Ongoing support to keep infrastructure running smoothly.

OUR DIFFERENTIATORS

Why Partner With Datacronix?

Manufacturing + Distribution

One partner for both custom-built hardware and OEM-sourced supply.

Agile & Personal

A small team means faster decisions and direct attention on every order.

Competitive & Transparent

Lean overheads translate into honest pricing and clear communication.

Quality OEM Partners

Access to established brands across racks, cameras, passives and switches.

Responsive Support

Responsive support with direct communication for pricing, sourcing and project requirements.

THANK YOU
